FEDERAL CREDIT UNION

Building Relationships, Changing Lives!

A MESSAGE FROM THE CEO

I started my career at the Credit Union nearly 29 years ago. During this time I have witnessed incredible growth, numerous milestones, and countless achievements. All made possible through many years of hard work from employees and volunteers dedicated to our most valuable asset: our members.

As a member-owned financial cooperative, our goal is to provide you with valuable benefits such as competitive loan and deposit rates, access to over 55,000 ATMs worldwide, free online banking/

bill pay, and no monthly service charges.

Over the past three years the Credit Union has experienced many changes. We have opened a member service center in Chillicothe, launched a new website, transferred to a new debit card program and added a full range of mortgage loan products. All of these efforts have reestablished our solid foundation to: support future growth, create new product development opportunities and stay focused on members' evolving financial needs.

Going forward, we want to be your first choice for all of your financial needs. We are committed to building a strong relationship with you based on trust and providing an excellent member experience. We understand that everyone has unique situations and we want to be there for you on this winding road called life.

I welcome your comments or suggestions to help us improve and serve you better by "Contacting Laura" at lroberts@chivaho.com.

*Annual Percentage Rate

*Subject to approval

FOUR REASONS WHY YOU NEED A PRE-APPROVED AUTO LOAN

HELPS YOU DETERMINE HOW MUCH YOU CAN AFFORD

Getting an auto loan pre-approval helps you know how much you can afford to spend before you even start shopping for a car so you can stick to your budget. If the salesperson tries to sell you a newer, more expensive car, you can feel more confident about declining the offer because you know how much you can comfortably spend and what your interest rate will be on your loan.

IMPROVES YOUR CHANCES OF GETTING A LOWER RATE

Getting pre-approved is often the best option when you're trying to finance a car because it can help you get a lower interest rate on your loan, which can save you money over the life of your repayment term. High-interest car loans are like a double-edged sword because while

your car is depreciating in value as you use it, you also must spend several years paying back your loan.

USE IT TO NEGOTIATE

Another benefit of getting a lower interest rate when you get a pre-approved car loan is that you can use it to negotiate if you purchase your car from a dealership. If the dealership wants to finance your auto, they will need to provide a better rate than your pre-approval rate.

ALLOWS YOU TO ACT AS A CASH BUYER

When you bring your pre-approval information to the dealership, you can negotiate the price of the car more effectively because you'll be acting as a cash buyer who can take their business elsewhere if your requirements are not met.
